Practice Elasticsearch   search API

Instructions:

- To complete this assignment you'll need the following files:
  sense_search_ex3.txt
  accounts-bulk.json
- Run:
  `> cd "[workshop directory]/ElasticSearch Course/Student Resources/Lab/Ex3"`
- Use the *accounts-bulk.json* as an input for the following command:
  `> curl -s -XPOST http://localhost:9200/bank/account/_bulk --data-binary @accounts-bulk.json`
- Now you have data about bank accounts indexed in Elasticsearch

Open marvel sense at: http://localhost:9200/_plugin/marvel/sense/index.html

Copy the text from *sense_search_ex3.txt* and paste it in *marvel sense*:

Go over the instructions and fill in the ??? with the correct values

Good Luck!
